

The 3<sup>rd</sup> International Symposium on Social Sciences and Management (ISSM 2018) is an international platform for scholars, researchers and practitioners to discuss interdisciplinary research and practices in the fields of Social Sciences, Management and all sub-fields.

To take place in Osaka, Japan on February 6-8, 2018; prospective authors of the Informatics Computer Institute Senior High School have submitted their original abstracts and/or full papers for, under consideration, journal publication. As of October 26, 2017, two (2) research teams as seen below are expected to present their work in front of the international community.

### **Gender Friendly School Assessment of Informatics Computer Institute Festival Mall**

#### **List of Major Contributors:**

<i>Name</i>	<i>Role</i>	<i>Contribution/s</i>
Mr. Adrian Alejandro RN, RSO	Research Adviser and Research Lecturer	Extensive Technical Inputs, Tool Development and Validation
Mr. Euwe Velasco	Primary Author	Documentation
